

VIRTUAL-ONLY EXHIBIT BOOTHS

Virtual-only exhibit booth sales are now open!

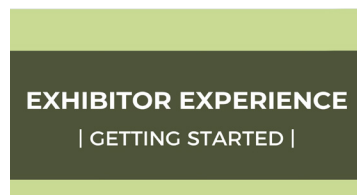

The 2023 National ESEA Conference will be a hybrid event and we're excited to use the hybrid Exhibit Hall to showcase the valuable resources our attendees are looking for. This is a great opportunity that allows any company unable to exhibit in-person to participate in the Conference. The virtual Exhibit Hall will be accessible to both the in-person and virtual audiences simultaneously.

Each \$1550 virtual-only exhibit booth includes the following:

- Standard Listing in the Conference App/Platform
- available to attendees 24-7 for the duration of the conference
- Multiple Links to Your Company Website
- Embedded Videos
- Downloadable Materials
- Lead Retrieval Button
- Metrics on Virtual Booth Traffic
- Polling and Booth Chat Features
- Add Tags for Filtered Searches

Pathable will again be our event platform provider for the 2023 National ESEA Conference. This will be our third event with Pathable and we have found them to be excellent partners. The tools that Pathable supplies are incredibly user-friendly and intuitive.

Please see the following videos provided by Pathable to better understand the virtual exhibiting experience:

Virtual-only booths can be purchased through your organization's Dashboard on ESEAnetwork.org.

Please feel free to contact our Exhibit Team with any questions regarding exhibiting virtually at the 2023 National ESEA Conference.

Anthony Franklin
